Issue 5

August 2006

August's mid week run was to Laycock Abbey and the Fox-Talbot Museum. What seemed a long run at the start was soon over, not much traffic meant we covered the distance very quickly. The interesting museum was small but there was also the Abbey and surrounding National Trust Village. A nice pub and just the right weather for walking about in leathers made for a great day out.

The Popham Megameet went down very well. We had space in the corner of the marquee near our old friends on The Francis-Barnet and The Velocette Owners Club stands.

Many Owners Clubs had stands and the autojumble gets better every year. Even free entry didn't bring in many VMCC members.

The Oxford section's ride in to The Lamb at Chalgrove was a washout with only seven bikes turning up. They seem to be getting the same response as us to runs.
